

## Day care center Goldenes Schlüsselchen

### LOCATION

Our day care center is located in the center of Halle-Neustadt. It is very quiet and green here. The day care center is easy to reach by public transportation car and on foot. The streetcar stop is called 'An der Feuerwache'; the bus stop is called 'Halleorenstraße'.

### PLACES / GROUPS

In our facility, we care for children from the age of 9 weeks until they start going to school. The children are in nursery groups or mixed-age groups. In total, roughly 120 children can come to our day care center.

### PEDAGOGY

We work according to the approaches of Elfriede Hengstenberg and Emmi Pikler. Our motto is "Give me time - movement is learning". The children can move freely in our house, try things out, discover and explore. In our garden, there is also a special movement area. At the movement area, the children can make experiences with their own bodies independently. Our varied breakfast and lunch offerings support the healthy development of all children.

### LANGUAGE

We are participants in the federal project 'Sprach-Kita'. We especially emphasise language that is integrated into everyday life and multilingualism. For this purpose, we have an additional language consultant in our facility.

### OTHER SERVICES

Furthermore, we offer in our facility among other things:

- movement areas for all children
- a large outdoor play area
- a children's library with multilingual books
- a children's restaurant
- a cooperation with 'Stadtteilbibliothek West'
- a cooperation with 'Villa Jühling'

### PARENTS

The institution aims to work in partnership with parents and families. Cooperation is an important prerequisite for successful work. This also includes:

- celebrations with the children and their families, e.g. the summer festival
- sugar cone party
- lantern parade
- reading days
- parents' afternoons.
